Meeting the demands of international business

- A single point of project management for a global rollout.
- An assurance of consistent service standards across all locations.
- An assurance that the application will be implemented using a consistent methodology.
- An assurance that the application will be configured consistently in all locations.
- An assurance that ongoing maintenance and support will be delivered consistently across all locations.

Experience You Can Depend Upon

Since our formation in 2004, we have successfully delivered and supported thousands of Microsoft Dynamics 365 projects (formerly called AX and CRM). In fact, this equates to more than 12% of all Dynamics 365 ERP and CRM projects worldwide.

Our aim is to ensure that your Microsoft Dynamics 365 project is delivered to the highest standards, with maximum benefits and minimum risks. Our members are the most highly proven in the business. This isn't just a throw away "marketing statement" – it is actually underpinned by real projects for real customers who will provide real references!

Quality Assured

Our experience translates into a worthy partner and a safe pair of hands for your Microsoft Dynamics 365 project. Our respective country members are all highly proven and must meet our strict entry and operational criteria. This means you are in safe hands if you choose DynamicsPact and you can count upon our commitment to achieve our common goal:

"To work together to provide world class Microsoft Dynamics 365 solutions and to exceed the expectations of our customers in all aspects of their project."

Reasons to Talk to DynamicsPact

- **Global Reach, Local Knowledge**

Our business model means that all our members work to our international implementation methodology and our centrally controlled standards. Meaning you are able to access the very best local knowledge, geographically close to your operational sites, providing in country expertise at a competitive price.

- **The Best of the Best**

DynamicsPact members are highly proven and passionate about what they do. We ensure that everyone shares the same ethos with our strict membership criterion. We have a strong commitment to each other and the client which means our results are exceptional.

- **Streamlined International Delivery**

Our proven international delivery methodology, IMpact, combines the experience of numerous projects and the best Dynamics 365 delivery leads in the world today. We have worked closely with Microsoft and aligned our approach with their Lifecycle Services and previously their Sure Step methodology.

- **Close to Microsoft**

We've worked alongside Microsoft on many global projects and DynamicsPact is a trusted Partner. Our size and status means we can nurture relationships at the most senior levels within Microsoft, meaning we have prior knowledge to Microsoft's future plans and roadmaps.

Relationship With Microsoft

Our senior people are amongst the most impressive in the business and they have strong personal relationships with the top people at Microsoft. These connections extend across all aspects of our business:

We have direct access to the most relevant people at the highest level to bring the most value to your project and ongoing relationship.

STEFFEN WEH

Director EMEA

Dynamics 365 Unified Operations
(Finance, Operations, Retail)

"DynamicsPact is a solid international alliance of some of the most experienced, long serving Microsoft Dynamics 365 partners from around the world. They have proven experience in overcoming the challenges presented by complex, multi-national projects which extend across different countries, languages and cultures.

An important asset is that DynamicsPact members are able to share a common approach to international projects and draw upon each other's resources, expertise and solutions."

CHANDRU SHANKAR

Manufacturing Industry Director,
EMEA MBS

"I have worked with DynamicsPact for many years, including participating in their CEO Conferences. Their passion and knowledge for Microsoft Dynamics is deep and broad, and their transparent sharing of knowledge, solutions and resources makes them a valuable asset to our Partner channel.

I have also witnessed strong industry expertise in the org and community, especially in manufacturing. They bring a consistent approach to helping our customers with their multi-site/multi-country implementations."
